## WHERE TO STAY

### THE SIVORY

Punta Cana, Dominican Republic

On the easternmost tip of Hispaniola lies Punta Cana, 40 miles of soft white sands lapped by Caribbean waves. Tucked away in this tropical (and still rustic) landscape, the Sivory Punta Cana (the area's only five-star boutique resort and spa) offers an oasis of luxury and solitude). Three restaurants, and an 8,000-bottle wine cellar, provide fortification after a hard day's work on the beach, and the cigar lounge offers the puro enthusiast a simple yet pleasant smoking *mise en scène*.

While the 55-room all-suite accommodations would seem more appropriate (at least at first glance) a destination for one's honeymoon, the clever folks here have also decided to serve their clients' male bonding needs with the Mancation package.

The three-night, four-day package begins with a box of cigars and a bottle of scotch waiting in your room upon arrival, plus two rounds of golf and a sports massage to work out the driver-induced shoulder kinks. The package also includes a helicopter transfer from PC International Airport; it's a good thing, considering the alternative is an hour drive on pothole-riddled dirt roads.
